

# South Central Oregon Adaptation Partnership

Preparing for climate change through science-management collaboration

## Vulnerability and Adaptation Workshop Agenda

March 15-16, 2016 Eagle Crest Resort, Redmond, Oregon

Day 1 – March 15<sup>th</sup>

### Session 1 – Vulnerability assessment presentations

- 0800 Registration and coffee
- 0830 Welcome (Forest Supervisors and Cynthia West, Director, Office of Sustainability and Climate Change)
- 0850 Project overview, workshop objectives (Dave Peterson, PNW Station & Becky Gravenmier, PNW/R6)
- 0900 Climate projections for South Central Oregon (Jessica Halofsky, UW)
- 0915 Hydrologic projections for South Central Oregon (Charlie Luce, RM Research Station)
- 0945 Break
- 1000 Effects of climate change on water use and infrastructure (Michael Crotteau, Fremont-Winema & Jason Gritzner, Deschutes)
- 1030 Effects of climate change on fisheries (Dan Isaak, RMRS, Jen Mickelson, Deschutes, Phillip Gaines & Terry Smith, Fremont-Winema)
- 1100 Variability and changes in vegetation and disturbance (Becky Kerns, PNW, Michael Case, UW & John Kim, PNW)
- 1145 Lunch
- 1315 Effects of climate change on riparian areas and groundwater-dependent ecosystems (Gregg Riegel, Deschutes)
- 1335 Effects of climate change on wildlife habitats (Peter Singleton, PNW Station)
- 1405 Effects of climate change on recreation (Dave Peterson, PNW Station)
- 1430 Break
- 1445 Effects of climate change on ecosystem services (Nikola Smith, R6 & Alec Kretchun, PSU)
- 1500 Panel Q&A – All presenters
- 1600 Group discussion – Are there key issues that have not been incorporated in the assessment?
- 1645 Summary & Next Steps (Dave Peterson, PNW Station & Becky Gravenmier, PNW/R6)
- 1700 Adjourn and Social (no-host bar)

# South Central Oregon Adaptation Partnership

Preparing for climate change through science-management collaboration

## Vulnerability and Adaptation Workshop Agenda

*Day 2 – March 16<sup>th</sup>*

0830 Introductions

0845 Review of previous day (Dave Peterson, Becky Gravenmier)

0900 Additional questions and discussion from Day 1

### Session 2 – Feedback on vulnerability assessment and identification of key sensitivities

0930 Integration across topical areas

- What additional integration needs to be done across topical areas? List examples and key linkages.
- Discuss relationship of key findings from each group to other groups and what should be addressed in the GTR.

### Session 3 – Develop adaptations strategies and tactics

1000 Overview of climate change adaptation, direction to workgroups (Dave Peterson)

1015 Breakout groups by resource area – identify key climate change sensitivities for resource area

1045 Breakout groups by resource area continued – identify adaptation strategies and tactics for each key sensitivity

1215 Lunch

1330 Reconvene work groups and continue work on adaptation strategies and tactics (take breaks as needed)

1545 Workgroup reports (5 mins/group)

1630 Next steps and close-out (SCOAP Leadership Team)

1645 Adjourn
